1. Please note that I have used google colab to write the code.

2. The code is divided into various code cells. Each cell is numbered at the top of the cell.For example ## Cell 0 ## , ##Cell 1 ## etc

3. The purpose of the code is also written on the top of the code cell itself.Therefore, the code is self explainable.

4. Please give the path to the files in cell 1.The name of the files are written in code itself.

5. Execute the code from cell 0 to cell 9 one after another.

6. Confusion Matrix and Summary of evaluation Parameters are produced once the cell 8 and 9 are executed.
